Design the Media and Technology of the Future Working with established and emergent digital media, you will design rich technology-based, multimedia learning environments, understand and evaluate their use in varied educational settings, and conduct research on how people learn with technology.

Tech & Science Archives - Digital Journal
All seniors in the School of Engineering and Computer Science are required to complete a design project as part of their degree requirements. The projects allow the students to practice what they have been learning in the classroom and implement the design process.

Master of Science in Digital Social Media | USC Annenberg
Inspire your students with thousands of free teaching resources including videos, lesson plans, and games aligned to state and national standards.

Degree & Certificate Programs | HVCC
AWS aligns the most purpose-built media and entertainment capabilities of any cloud against five solution areas to help customers transform the industry: Content Production; Media Supply Chain & Archive; Broadcast; Direct-to-Consumer & Streaming; and Data Science & Analytics. With AWS, you can select the right tools and partners for your workloads to accelerate production launches, and see
